PROFESSIONAL EXPERIENCE

Aorbis Inc.

Hartford, CT

Finance Associate

February 2026 - Present

- Owned monthly close and balance sheet reconciliations, reduced recurring adjustments by 20% and partnered with leadership on monthly business reviews to drive budget vs actual and working capital decisions
- Analyzed working capital across receivables, payables and short-term debt, identified inefficiencies and built a rolling cash flow forecast to drive liquidity planning, variance analysis and monthly forecasting
- Reviewed the build of an internal financial control module website, defined reporting requirements with the software team and ran user acceptance testing to confirm data reconciled correctly across the system
- Supported OSTE service launch with pricing, unit economics and margin analysis for go-to-market and revenue planning

PricewaterhouseCoopers (PwC)

Mumbai, India

Associate 2 - Capital Markets and Accounting Advisory Services (CMAAS)

October 2022 - April 2024

- Led IFRS-to-US GAAP conversion for a \$34B Irish company, drove SEC filings (10-K/10-Q) and analyzed revenue recognition, leases and derivatives to support cross-border management reporting
- Seconded to a \$20B UK telecom group to support month-end close, variance analysis and financial reporting; resolved 100+ open items, saving 120+ hours and improving reporting turnaround by 25%
- Managed IFRS transition for a \$2B Saudi company; reviewed 50+ revenue contracts under IFRS 15, prepared technical accounting memos and delivered audit-ready financial statements ahead of the transition deadline
- Built ASC 718 stock-based compensation model to forecast equity expense for FP&A, budgeting and headcount planning
- Received PwC Spot Award (sole recipient, 120+ team) and 3x Above & Beyond Awards for cross-border SEC engagements

Article Trainee - Audit and Assurance

September 2019 - September 2022

- Executed statutory audits for listed companies (\$300M+ revenues), performing financial statement analysis and cash-flow reviews to validate revenue recognition, leases and ICFR controls, with zero material restatements
- Managed end-to-end statutory audits for two mid-sized firms (\$25M revenue each); prepared financial statements, disclosures and trial balances under Ind AS using SAP ERP, delivering clean audit opinions on time

FINANCE & MODELING PROJECTS

Investment Appraisal & Scenario Analysis - ServiceNow Inc. (UIUC | Advanced Corporate Finance)

- Appraised a \$1.5B AI infrastructure investment for ServiceNow, modeled funding scenarios and assessed how financing structure moved WACC from 8.8% to 8.7% to test capital efficiency across options
- Built a best, base and worst case scenario model with sensitivity on revenue growth and margin assumptions, deriving a \$626-\$1,151/share value range vs. \$1,057 market price and flagging overvaluation risk

Forecasting & Operating Performance Analysis - Lennox & Trane (UIUC | Applied Financial Analysis)

- Built 10-year driver-based financial models for Lennox International and Trane Technologies, forecasting revenue growth, margin trajectory and capex to project multi-year operating performance
- Benchmarked Lennox vs. Trane on margins, ROIC and operating leverage, isolating the drivers behind Trane's stronger operating performance and cash generation across the forecast horizon

Segment Profitability & Scenario Analysis - SpartanNash Inc. (UIUC | Investment Banking Concepts)

- Analyzed SpartanNash operating fundamentals with a driver-based DCF and comparable benchmarking, deriving a \$15.5-\$27.4 value range and testing sensitivity to margin, growth and cost assumptions
- Broke out segment-level profitability and value drivers across business units, running upside and downside scenarios on margin and capital assumptions to frame the range of outcomes by segment
